Thanks to everyone for participating, and to the Trenton Horticultural Society for volunteering their time as judges!

Scholarship News

Congratulations go out to Joey Coward of Batawa for winning the Orica Canada Ltd Scholarship on the basis of academic excellence and demonstrated leadership in extra-curricular activities and or community service. Joey is entering his third year in Engineering at Queen’s University.

← Principal Darcey French of Sacred Heart recently saw a familiar site while on a trip to Poland!

→ Emilie Merilainen (left) and Taryn McLachlan (front) of Batawa will be heading to the rugby nationals in Alberta this year. Congratulations!

Did You Know?

When once asked: "if you could live in any country in the world, which one would it be," Tom Bata responded: "Canada." Patriotism was felt very deeply by Thomas Bata, who made Canada his home and reminded all of us, quite often, that we should be so proud to be Canadian.

Factory Update

Light shines through the roof of the factory now, with the final floor cut for the stairwells and elevator shafts. We are getting ready to pump in "shotcrete" for the elevator shaft & stairwell walls. You will also see an example of a full bay construction, which will serve as quality control sample. We are grateful for your patience as this exciting project continues.

BUS TRIP

Saturday, September 27th, 2014
